

Career Fair ~29th April, 2017

The school organized a Career Counseling session for the students of Classes IX-XII on 29th April, 2017 to dispel the doubts and qualms students had regarding foreign education. Four leading universities were invited to brief the students about the criterion required for admission in Monash University from Australia, San Jose State University from USA, Fanshawe College from Canada and the University of Bridgeport from USA. The session covered several important points that students must keep in mind while choosing a stream and eventually, their career path. The students were also made aware of the lucrative scholarships that these prestigious universities offer to the students to make the admission process convenient to them.

Various facets of a career choice and its determining factors such as aptitude and interest, span of a course, commercial resources, availability of opportunities, academic potential and other aspects such as age, working conditions, placements and support were explained through relevant examples. The session also threw light on the various skills required for pursuing a particular career, and how a combination of such skills is essential for success in a field. The session proved to be enriching for the children as they got to discuss various career possibilities in various arenas of life. The resource persons from leading universities were impressed with the confidence of the students and pledged to support them in all possible ways. The seminar concluded with an interactive session of the students with the delegates. The career fair was an overall success and gave students an elaborate idea about how to go about with the admission process.
