

Havan at Sat Paul Mittal School for Class X and XII to seek divine blessings for forthcoming Board exams

Sat Paul Mittal School is instrumental in producing leaders who are epitome of a fine blend of tradition and modernity. As the students of class X and XII gear up for the forthcoming Board examinations, the school organized Havan in the school premises to seek divine blessings as well as inculcate respect for different religious and cultural practices. This was followed by the students and staff paying obeisance at the Gurudwara and seeking divine blessings.

Ms. Bhupinder Gogia, Principal, wished the students success and encouraged them to perform well in the Board Examinations. Giving study tips to the students she professed how success comes from time management. She quoted one line of Swami Vivekananda, 'Arise, awake and do not stop till the goal is reached'. At the end, she hoped that students would cherish the lessons inculcated in their character throughout their lives. The Heads and teachers of the school also wished the students success and motivated them to do well. Nostalgia gripped the students as they drew upon reminiscences and recalled fond memories of the years spent in school.
