

# **Personal Grooming & Good Manners- Workshop** **conducted by our parent**

**Ms Monica Dhall**

Life is all about being successful in the various walks of life. In addition to various qualities, a native should be well groomed. It is the person's first appearance which leaves an everlasting impression on others. To imbibe the students with more insight about it, a workshop was organised in Seminar Hall under the parent engagement programme. The resource person for the same was Ms Monica Dhall, mother of Suhaila Dhall of class 2B. Children were made aware about the importance of personal hygiene and encouraged to live a healthy lifestyle. They should always greet others with a smile and adopt a positive attitude towards life in every situation. They were also encouraged to use the five magic phrases- Thank you, Please, Sorry, Excuse me and May I. Ms Monica acquainted the students with the usage of polite words, cooperating with others, being kind, to empathize, to lend a helping hand to others and the power of appreciation. The students were also told about public eating and table setting. The workshop was concluded with an interactive quiz. The Satyans had a great time learning new things.
