

EARTH DAY CELEBRATIONS AT SAT PAUL MITTAL SCHOOL

“The environment is where we all meet; where all have a mutual interest; it is the one thing all of us share.” —Lady Bird Johnson

Sat Paul Mittal School believes in inculcating good values and sensitizing students towards the protection and preservation of our environment for a better tomorrow. It is imperative that students learn at an early age about how and why the environment should be looked after so that they can be contributors towards a healthier tomorrow. With regard to this, Sat Paul Mittal School celebrated Earth Day on 22nd April, 2019. Myriad activities were conducted with a conscious effort to create tolerance and peaceful coexistence with faith in unity in diversity with other life forms.

The celebrations started with emphatic speeches and reciting thought provoking poems in the morning assembly. Various workshops of Clay Creations, Paper Bag, And DIY Best Out Of waste material, and the paint palette for junior classes were conducted in which the students participated enthusiastically. The teachers discussed at length with the children about the consequences of cutting trees and also the benefits of planting more. The students of Classes VI-VIII participated in a “Plantation Drive” organized to spread and create awareness to protect the environment from degrading. The students planted and distributed the saplings to the residents of nearby areas of the School. It was heartening to see the children taking such keen interest in the plantation as well as taking care of the environment. Later the Earth Day Celebrations at Sat Paul Mittal School ended by taking an oath to prevent the environment from pollution by contributing little in our daily life. The event was a success as each student contributed profoundly for this day.
