

INDUSTRY VISIT TO PARMESHWARI SILK MILLS- by Class XI Commerce students

To expand practical knowledge by implementing experiential exposure, the students of Sat Paul Mittal School of Class XI- Commerce visited a textile factory in village Bajra. Students were taken to various divisions of the factory and were explained their functions in detail. It helped the students to learn about the day-to-day workings of a textile industry. They also got an insight of the internal working environment of the accounts and marketing departments.

Students were shown a massive Waste Water Treatment Plant which converts 16 lakhs litres chemical waste water into purified RO drinkable water. They were also shown the samples of every stage of purified water.

The students were overwhelmed by seeing the working of massive digital printing and embroidery machines.
