

PHOTOGRAPHY WORKSHOP

‘Photography, as a powerful medium of expression and communications, offers an infinite variety of perception, interpretation and execution. -- Ansel Adams’

Sat Paul Mittal School organized a two day workshop on ‘Photography’ for classes XI-XII on August 5th and 6th August, 2019 by Mr. Gaurav Sethi. Mr. Gaurav Sethi, a renowned photographer of Ludhiana, is known among his clients for capturing candid yet aesthetically fine photographs.

The master class was able to hone the skills of the students who also got a sneak-peak into the world of professional photography. Students realized that photography isn’t merely clicking pictures but a multidimensional art comprising compositions, lighting, aesthetics and spontaneity. The mentor provided an insight into the various nuances of photography and explained the various techniques of capturing an exquisite picture. It was a highly interactive session comprising open discussions, display of sample work, and hands-on experience in software like Adobe Photoshop. The exposure gained by participating in this workshop has endowed the Satyans with a strong ability to capture various moods and set tone for an idealistic photo session. This workshop proved to be a refreshing break from textbook learning and for the students, it was an experiential learning at its best.
