

Sat Paul Mittal School bench marked as Future 50 Schools by Fortune India.

Sat Paul Mittal School as a thought leader of future has carved a niche for itself by being benchmarked as “Future 50 Schools Shaping Success”,

The bench marking has been conducted by Fortune India alongwith Univariety (the largest company in India which sets up out placements in schools for high school students) to recognize the efforts put in by progressive schools in shaping student success.

Just like the illustrious Fortune 500 Companies and the TIME’s 100 Most Influential people, the school segment has been bench-marked as **Future 50 Schools Shaping Success**.

This recognition certifies 50 schools, across Indian (CBSE, ISC and State Board) and another 50 schools across International (IB and Cambridge) curricula. Fortune India and Univariety have measured schools on the yardsticks of student career planning and the subsequent results garnered for the future of their students.

Sat Paul Mittal School has been honoured with a "Certificate of Recognition" attesting the school as a forerunner in shaping success of their students, based on various performance criteria during the academic year 2016. Alongwith this, Sat Paul Mittal School will also be listed as Future 50 Schools Shaping Success in Fortune India Magazine’s Special Exchange Edition.

The Chairman, Shri Rakesh Bharti Mittal complimented the Principal, the entire faculty, staff and Satyans for this well deserved recognition.

The Principal Mrs Bhupinder Gogia said that the school has been able to get such recognitions only because the parents are a pillar of strength for the school and passionate and hardworking teachers for whom the well-being of the child is top priority.
