

Club Showcase- Potter's Puddle and Art Prodigy for the students of Classes- II-V

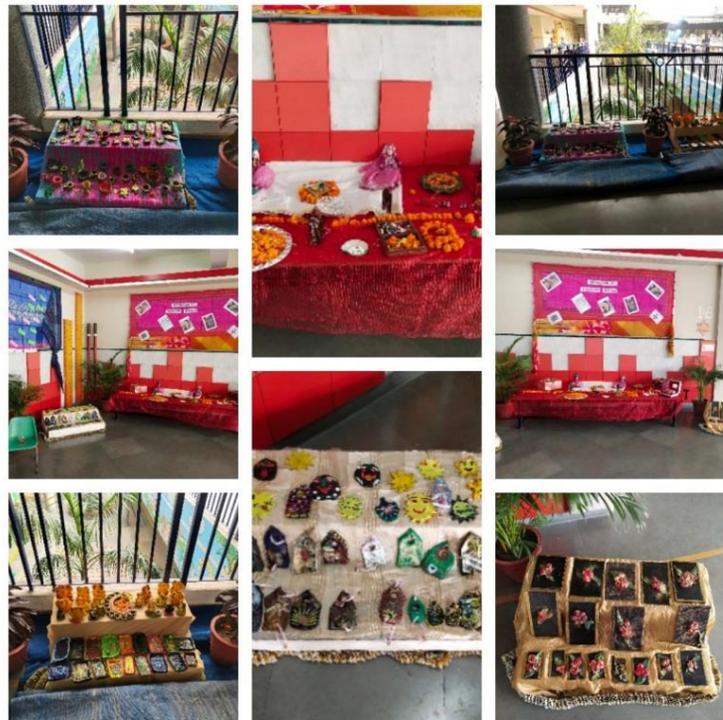

Young minds can think new and big, and the showcase was the perfect platform for the creative minds of the children to meet their colourful desires and fantasy needs. Unveiling the hidden potential of the students is of paramount significance during the formative years. In consonance with its mission to create thinking individuals capable of articulating their thoughts effectively, Sat Paul Mittal School organized a Club Showcase- Potter's Puddle and Art Prodigy for the students of Classes- II-V on 16th October, 2019 in the school campus. The club Showcase is a noble initiative of the Junior School to project various skills and display

various artefacts made during the Clubs. The inception behind this thought lay in the sole motive to provide an opportunity to the students to showcase their talent. The approach is to facilitate hands on experience and learning that will structure their thought process and help them to explore different realms of knowledge and imagination. Potter's Puddle and Art Prodigy are the great ways to help children to develop imagination and spark creativity.

The Satyans showcased their work to their parents with full zeal and confidence. The event started with a brief introduction about the showcase followed by a clay and art

activity. Children showcased their creativity and imagination through the means of clay and art. Manifold themes were exhibited like clay flowers on a wooden base, diyas, decorative tiles using

buttons and quilling technique. Teachers and parents were spellbound to watch little hands on art. The Satyans applied their ideas and presented their work differently in their own unique way. This showcase was an endeavour to enhance motor skills of tiny toddlers.

Parents appreciated the efforts put in by the Satyans and looked forward for more of such events in the future.
