

Earth Day Celebrations at Sat Paul Mittal School

Mime on Saving Trees

Sat Paul Mittal School with an aim to promote environmental awareness and to encourage everyone to protect their planet, celebrated Earth Day on 21st April 2023. The day began with a morning assembly wherein a group song was presented by students of Class IV to honour the planet and show appreciation for that it provides us with. To remind us all of our responsibility to take care of our planet by saving trees, a Mime was enacted by the Social Studies Department of the school. Furthermore, to raise awareness about the importance of recycling and sustainability, The Recycled Exhibition was put up by the students of Classes III – V in collaboration with the Clay department wherein they used the eco-friendly paper Mache technique to create beautiful products followed by an Earth Day pledge. The pre-primary school also conducted various activities like planting a sapling, making Earth pendants etc.

The assembly was followed by a workshop to promote the importance of making healthy food choices that are good for us as well as the environment by Dr. Sanchit Budhiraja, a renowned gastro entomologist.

A workshop on Environmental Protection by Ms. Vinisha Umashankar, a renowned environmentalist and young change maker was conducted for the students of Classes III-V imbibing the value that we mustn't wait for extraordinary circumstances to do good action; rather try to use ordinary situations for extraordinary outcomes.

The day's event was an effort to inspire the Satyans to take action and make a positive impact on the planet.
