

## *Earth Day Celebration*

*PV to V*

*In the forest deep, where rivers flow,  
Earth's beauty spreads, in constant glow.  
From mountain peaks to oceans wide,  
A precious world, where life abides.*

*On Earth Day, let's pledge anew,  
To cherish, protect and renew  
For every creature, every tree  
This planet's gift, for you and me*

As we transverse the ever evolving landscape of the 21<sup>st</sup> century, our planet's health has become an increasingly important point of concern. It is time to reflect on the importance of environmental stewardship and our responsibility to protect our planet for future generations. We, at Sat Paul Mittal School are committed to make positive changes that benefit our environment. With the aim to raise awareness, inspire change and foster a deeper connection with nature, a special assembly on Earth Day, **Sustain the Earth-Together for Tomorrow** was organised. The assembly featured around captivating performances by the students of Class V centred on the theme of environmental stewardship. The students showcased their learning through various presentations and performances. They delivered speeches about the importance of Earth Day and shared their personal commitments to protecting the environment. A Nukkad Natak was presented by the teachers to raise awareness about plastic's harm to humans and biodiversity health.

'**Walk the Talk**' activity was also conducted for the students of Classes III-V wherein the students expressed their commitment to protecting their planet, fostering creativity and camaraderie among the participants

**Earth Day Global Conference** was also organised for the students of Class V wherein they connected with the students across the globe and learnt about the climate change. As a part of **Zero Waste Tiffin initiative**, the students of Classes III-V were encouraged to use reusable containers, refill bottles, avoiding the use of single use plastic, focussing on mindful portioning and trying to include compostable food scraps in their tiffin's on the day of Earth Day.

The Satyans of Classes PV-II prepared various Earth Day crafts like garlands, bracelets, headgears and wind chimes as a part of Earth Day celebrations.

*It's time that our actions speak volumes for our planet and it's myriad of life forms. Let's continue the journey to a greener future, through creativity and awareness.*
