

Workshop on “Exploring Future Tech Careers within an Interdisciplinary Human-Centric Framework” was conducted for Classes XI and XII

A workshop on “Exploring Future Tech Careers within an Interdisciplinary Human-Centric Framework,” was conducted by Mr Milind, the Manager for Admissions & Outreach at Plaksha University provided an insightful exploration of how the future job market is evolving due to rapid advancements in automation and technology. The discussion aimed to broaden students' understanding of how emerging career paths increasingly blend technical and human-centered skills, creating a compelling interdisciplinary framework for aspiring professionals. Overall, the session provided a valuable glimpse into future tech careers and demonstrated the importance of an interdisciplinary, human-centered approach in the modern workforce. Through engaging discussions and a practical project showcase, Plaksha University effectively conveyed its commitment to equipping students with the skills and knowledge necessary to thrive in an evolving, technology-driven world.
