

Sat Paul Mittal School Organizes Book Collection Drive to Promote Sustainability and Generosity

Sat Paul Mittal School successfully organized a Book Collection Drive, an initiative aimed at fostering a culture of sharing and responsible resource utilization among students. The drive encouraged students to donate textbooks from the previous academic year that were no longer in use, ensuring that these valuable learning resources could benefit their peers.

The enthusiastic participation of students and parents played a vital role in the success of the initiative. Their generous contributions not only supported fellow students but also reinforced the practice of reusing resources responsibly. The collected textbooks and old specimen books from the library were displayed during the Open Day, where interested parents had the opportunity to take books as per their requirements.

Through this initiative, the school has taken a significant step towards sustainability and community support. By encouraging students and parents to participate in this meaningful effort, Sat Paul Mittal School continues to instill values of compassion, responsibility, and environmental consciousness among its students.
