

HUMANITY IN ACTION

1ST NATIONAL YOUTH

Legislations impact our lives irrespective of our age and social status. To prove this proposition, Sat Paul Mittal School conducted its first National Youth Parliament under the National Youth Parliament Scheme by the Parliamentary Affairs of India.

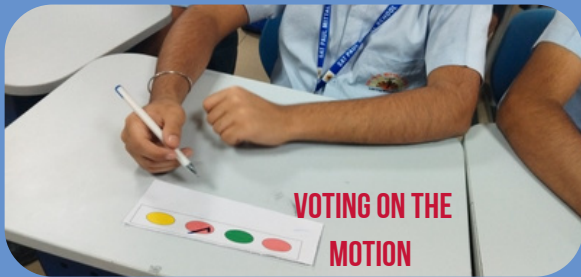

In this eye opening session, the Satyans of Classes IX, XI and XII presented their views and insights as parliamentarians on important national issues such as Vocational Education, Naxalism, Research and Development, Cyber Security etc. They left everyone spellbound with their research and debating skills.

Defining Moments.

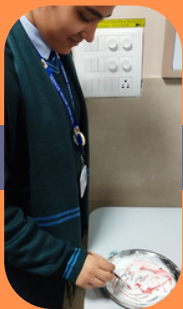

HANDS ON LEARNING

VOTING ON THE MOTION

The 21st century demands critical thinking skills and knowing how to use them in real-life situations. The Department of the Social Sciences empowers the Satyans with these skills through experiential learning.

Supporting the above propositions, Satyans conducted a Mock Parliamentary Cut Motion in the class and learned the art of medieval period frescoes. They also got insight into Netaji Subhash Chandra Bose's life and learnt about the various government initiatives. Student-led clubs pertaining to the subject such as the MUN and Heritage clubs also complemented the objective.
